AKSHAYA SRI B

Salem, Tamil Nadu, India | +91 8489361134 | akshayasrib05716@gmail.com | www.linkedin.com/in/akshaya-sri-balan

SUMMARY

Final-year B.Tech AI & Data Science student who turns real user problems into working products. Wrote the PRD and led delivery of LocalLens AI, a Gemini-powered Google Maps discovery prototype, and digitized inventory and GST billing for a family manufacturing business. Experienced in user interviews, cross-functional coordination and presenting technical solutions, including at Smart India Hackathon.

EDUCATION

B.Tech in Artificial Intelligence and Data Science | Sona College of Technology, Salem — May 2027 | 8.52

Higher Secondary Certificate (HSC) | St. Mary's Girls Higher Secondary School — May 2023 | 93%

Secondary School Leaving Certificate (SSLC) | St. Mary's Girls Higher Secondary School — May 2021 | 100%

SKILLS

Languages: Python, C++, C, SQL, NoSQL

AI/ML : Machine Learning, Deep Learning, Computer Vision, Generative AI (Gemini API)

Backend and Tools: FastAPI, REST APIs, BeautifulSoup, Embedded Systems & IoT

Product: PRD Writing, Product Roadmapping, Prioritization, Agile Prototyping, User Research, Data Interpretation

Leadership & Collaboration: Cross-functional Coordination, Technical Presentations, Mentoring, Event Leadership, Project Management

EXPERIENCE & LEADERSHIP

Business Lead | Family Timber & Woodworking Business

- Defined product requirements and optimized pricing calculation logic to digitize traditional inventory and regional GST billing workflows, cutting transaction processing time significantly while managing stakeholder communications and statutory compliance.

Peer Tutor | Sona College of Technology

- Mentored and guided academically struggling students through structured 1-on-1 and small group technical coaching, breaking down complex engineering concepts and boosting comprehension.

Event Organizer & Lead | Department Hackathon

- Spearheaded the planning, cross-functional coordination, and execution of college-level hackathons, managing logistics, judging panels, and participant engagement to foster a collaborative technical culture.

TECHNICAL & CORE PROJECTS

LocalLens AI – Google Maps Discovery Layer | Python, FastAPI, React, BeautifulSoup, Gemini API

- Identified local business discovery gaps and wrote the PRD for a two-person team, defining MVP scope then co-built a full-stack prototype using Gemini API and FastAPI that extracts offers from permitted sources and returns source-grounded answers with attribution and verification status.

SONA Scheduler | Faculty & Student Workflow Tool

- Interviewed department staff to understand how they follow up with struggling students, then built a workflow tool that tracks those students and automates follow-up scheduling, cutting administrative follow-up time by over 40%.

AI Fashion Advisor | Generative AI & E-Commerce Personalization

- Defined the product scope for an AI fashion advisor that tackles online shoppers' difficulty finding the right fit and style, using computer vision to estimate body measurements from a photo and recommend the right fit and style.

AIoT-Based Surveillance System | Smart Automation & Computer Vision

- Built a prototype that combines a camera with our surveillance model pipeline to detect intruders and send real-time alerts, using the camera to confirm detections and cut false alarms.

Safe Wiping for IT Assets | Smart India Hackathon Project

- Co-designed a secure data-wiping pipeline for retired enterprise IT assets, aligned with standards and guidelines, for Smart India Hackathon 2025, and pitched it to a national panel.

ACTIVITIES & CERTIFICATIONS

Activities: National Cadet Corps (NCC) • Martial Arts Practitioner (Karate) || **Certifications:** Business Analytics Certification (Internshala) • Design Thinking Primer (NPTEL) • Aspire Leadership Program
